

Antelco PotStream

The PotStream™ is a side mounted watering solution for pot plants and containers. The adjustable gentle stream pattern minimises soil erosion and the variable flow rate and pattern radius allows for use in various pot sizes.

Features

- Variable flow rate and pattern size suits 150 mm to 600 mm diameter pots.
- Suits pot wall thickness up to 40 mm.
- Side mounted installation for clean and tidy location of supply tube.
- Low application rate and gentle stream pattern.
- Easily adjustable knob for varying spray patterns.

Applications

Pot plants, planter boxes and containers.

Performance			
	PRESSURE (kPa)	FLOW (lph)	RADIUS (mm)
	50	0 - 16	0 - 235
	100	0 - 22	0 - 245
	150	0 - 27	0 - 260
	200	0 - 31	0 - 280
	250	0 - 36	0 - 300
	300	0 - 39	0 - 330
