

# Oase ProfiClear Survey

Please answer all questions as accurately as possible\*

## Consumer Details

Name	
Postcode	
Notes (Please include any information you feel to relevant)	

## Pond Details

Pond length (m)	
Pond width (m)	
Maximum pond depth (m)	
Percentage of pond at maximum depth	
Total surface area (m²)	
Overall capacity (L)	
How long has the pond been established	
What is the pond lining material - E.g. Rubber, PVC, Clay, Etc.	
Is there any existing equipment installed (If yes, please specify)	
Notes (Please include any information you feel to relevant)	

## Pond Environment

Sunlight exposure - Full, partial or none	
Are there surrounding trees or shrubs (If yes, please specify)	
Is there the potential for run off (If yes, please specify)	
Has vegetable filtration been used (If yes, please specify details and size)	
Are there any aquatic plants (If yes, please specify)	
Notes (Please include any information you feel to relevant)	

## Water Quality

Are there any water quality issues (If yes, please specify)	
If the water quality has been tested please state results;	
Ammonia	
Nitrite	
Nitrate	

Phosphate	
kH	
pH	
Notes (Please include any information you feel to relevant)	
<b>Livestock</b>	
Will there be or is there fish stocks (If yes, please specify type - E.g. Koi)	
Quantity of fish	
Approx. total fish weight	
Will waterfowl be using the pond - E.g. Ducks	
Notes (Please include any information you feel to relevant)	
<b>Equipment Required</b>	
Is a pump-fed or gravity-fed system required	
For pump-fed please specify;	
Hose length and diameter	
Head height (lift above water level to highest point)	
Are there elbows on the pipework (If yes, please specify)	
For gravity-fed please specify;	
Number of bottom drains and size	
Pipe lengths and diameter on inlet	
Are there elbows or valves on the pipework (If yes, please specify)	
Is there any head height on the outlet (If yes, please specify)	
Pipe lengths and diameter on outlet	
Is EGC based control required (App. control)	
Is off site controllability required - Including graphed data	
Is oxygenation required	
Would a fountain or a minimal visibility option be preferred	
Are surface skimmers required	
Notes (Please include any information you feel to relevant)	
<b>Goals</b>	
What is the goal - E.g. Clear water, ammonia removal, etc.	
Notes (Please include any information you feel to relevant)	
<b>Additional Equipment</b>	

Is lighting required	
Would a colour changing light option be suitable	
Is a decorative fountain required	
If yes, which nozzle from our range would be preferred	
Is there a required fountain height	
Notes (Please include any information you feel to relevant)	
<b>Please include any further information that you feel is relevant to this installation</b>	

\*Equipment quotations are based on the information provide in the survey, please ensure Oase is notified of any changes to the installation as this may affect the quotation. Pump sizes will be calculated using pipework and head height information, if pipework information is not provided Oase will assume pipe lengths and calculate accordingly. Oase will not accept responsibility for any incorrect quotations that arise due to incorrect or missing information included on this survey. General terms and conditions apply.
