

# Kasco

## Surface Aerators

- Ensure a lower overall operating cost while delivering an extremely high dissolved oxygen level.
- Are manufactured with a hard-face internal mechanical seal for protection against leaks, and are flood oil lubricated for excellent heat dissipation.
- Feature a corrosion resistant, stainless steel design. This also makes them extremely dependable in salt water applications.
- Increase fish growth and population density while providing efficient water and food circulation with little or no bottom turbulence.
- 2 year warranty for 1/2HP, 3/4HP and 1HP
- 3 year for the 2HP, 3HP, and 5HP
