AquaActiv PondClear (PNA6260)

AquaActiv PondClear 500 ml

Container size		500 ml
Suitable for ponds up to max.	m ³	10
Optimal supplements		OptiPond

- Makes murky ponds clear again.
- Effective against fine, non-filterable pollutants
- Flocculates turbidity-causing particles, such as suspended algae (green water) as well as mineral or other sources of turbidity. Thus this flocculation can be simply filtered or suctioned off.
- Helps remove phosphates and heavy-metal compounds
- Use biocides carefully. Always read the label and product information before use!
